

The spring issue of the Connecticut DEP's Pollution Prevention newsletter, **P2 View**, is now available by clicking on the following link:

<http://www.ct.gov/dep/lib/dep/p2/newsletter/p2viewspring09.pdf>

- Learn about how to form a green team at your workplace.
- Find out about wind energy projects in Connecticut.
- Read how Middlesex County libraries are lending a hand to help the environment.
- Like to shop? Learn about some exciting alternatives to the mall.
- Don't know what to do with those old sneakers? Find out where to recycle them.
- Read Eartha's answer on how to get clothes clean without harming the environment.

Currently we have funding from the federal EPA to print a limited number of copies. These are sent to people who don't have access to e-mail or have computers that are unable to handle opening the newsletter. We also mail a newsletter to some people who requested a copy to be able to post or pass on to others in your group, family, or office. Please let me know if you would like a printed copy to pass around.

Thanks for your interest in pollution prevention!

Judy Prill, Editor
