

## Dredging Subcommittee Report for HMC March 9, 2010

1. I attended the Feb. 17 meeting of the Connecticut Maritime Commission, presented our case, such as it is. I plan to attend future monthly meetings of the CMC.
2. With regard to our capital request for testing, Charlie Delinks (and others?) will be making our case to the Board of Finance in my absence.
3. The subcommittee hopes to meet early next month to discuss alternative funding approaches and other issues.
4. The dredging piece in the OL town newsletter should be in the mail sometime this month.
