

Hello,

I have a few RFIs

- 1. Are the Cedar Sliding Barn doors to be 2 ¼ inches thick at their narrowest point or at their thickest point?**

- 2. Are the Cedar Sliding Barn Doors to be finished or unfinished? If they are to be finished please supply the specifications for the desired finish.**

- 3. Wall type 2 is an exterior wall with drywall on the inside, but is drawn (A1.0) without insulation. Is that correct?**

- 4. At the prebid meeting, temporary fencing to secure an area for use by the town was mentioned. Please supply the length, height, and style of fencing, along with the number and sizes of gates desired.**

Thank You,
Raymond Galvin
