New Business

Other than the aforementioned comments in the Chairmans Report there was no activity during this period, and no correspondence--thus there is no new business to record.

Old Business

Secretary Redfield read a response to a question of the Commission regarding way our shellfish grounds were judged so differently from those of the New Haven Harbor area. After hearing the response from David Lamoreaux, Environmental analyst for the Bureau of Aquaculture Laboratory, Department of Agriculture, State of Connecticut. The Commission agreed that the response did not adequately answer the question. Secretary Redfield agreed to further communicate with the Department to obtain a better understanding of the matter.

Since there were no visitors there was no Public comment and the meeting was adjourned at 7:50 PM

Respectfully submitted

David W. Redfield
Secretary
