STATE OF CONNECTICUT
CONNECTICUT SITING COUNCIL

RE: APPLICATION BY T-MOBILE NORTHEAST, LLC FOR A CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY AND PUBLIC NEED FOR A TELECOMMUNICATIONS FACILITY AT 61-1 BUTTONBALL ROAD IN THE TOWN OF OLD LYME, CONNECTICUT

DOCKET NO. 393

Date: February 22, 2010

SUPPLEMENTAL PRE-FILED TESTIMONY OF RAYMOND M. VERGATI

The following pre-filed testimony supplements my pre-filed testimony filed on January 28, 2010, in connection with the above-captioned matter.

Q12. Has T-Mobile offered the Town of Old Lyme the opportunity to co-locate its emergency services equipment on the Facility?

A12. Yes. T-Mobile has expressed to the Town of Old Lyme ("Town") its willingness to provide, free of charge, space on the proposed monopole for municipal public safety communications antennas. I spoke to David W. Roberge, the Town's Fire Marshal, via telephone and electronic mail. The Town had not expressed its intentions regarding co-location by the time of the hearing on February 4, 2010. Please see the email correspondence appended hereto as Attachment A.

Q13. Did you communicate with the Town regarding the opportunity to co-locate its emergency equipment on the Facility after the hearing on February 4, 2010?

A13. Yes. I communicated with David W. Roberge, the Town's Fire Marshal, via telephone and electronic mail. I asked the Town whether it had an interest in co-locating its emergency service antennae on the Facility. I also inquired whether co-locating on the facility proposed at the "Self-Storage" site, located at 232 Shore Road,

would obviate the Town's need for co-locating on the Facility. The Town has not provided a definitive response as of yet. Please see the email correspondence appended hereto as Attachment B.

Raymond M. Vergati

Subject: Town emergency spec info for T-Mobile proposed towers

Hi Dave,

Following up on our prior meeting/conversations regarding the receipt of the town's communication specs/needs. You mentioned that you should have this information available to me next week, please forward once you have received so T-Mobile can review.

In the interim, should you need any further information on the (3) proposed T-Mobile sites from me, please do not hesitate to contact me.

Best Regards,

Ray

Subject: Town Emergency equipment needs on T-Mobile towers
Importance: High

Dave,

If the town were to co-locate on T-Mobile proposed tower at the 232 Shore Rd (self storage facility) in the vicinity of 140' – 160', 2 questions for you.

1. Would the town co-locate their emergency equipment on the Button Ball Rd proposed tower site and if so, what height would be needed?
2. Would the town co-locate their emergency equipment at the Laundry mat proposed tower site and if so, what height would be needed?

Please advise...Ray

Ray

We could consider those sights but would need to redo our propagation study to include those locations.

The next siting council meeting is March 2nd and they are most likely going to ask us if the town has a need for these sites. I'd like to provide them a yes or no answer. Are you able to redo your propagation study prior to the hearing?

Please advise.

Ray

I dont have the funding to do the studies for other locations. My other data (dated 2004), shows propagation from the location at 125 Mile Creek. The topography calculations are similar with Shore Road.

Besides, I believe that the laundromat location is the site with biggest public opposition.
