|-------------------|--|
| Sandra Rueb | "Walkability" is huge, so real residents can have a cup of coffee, sit by the river, and exercise in a beautiful setting away from the dangers of speeding cars & trucks |
| Christine Gotowka | Go Go Go - Terrific opportunity to help many efforts to move the town forward. |
| Martin Kreiswirth | The sooner the better - Great ideas |
| Kinny Kreiswirth | All of the above - Fantastic! |
| Peggy Kenny | I love the idea of having a real town center, shops, walking areas and places to gather and one that reflects the character of Old Lyme |

| Gary LaRocque | I have lived in Old Lyme for over four years. The Halls Road area is out of date, dangerous driving, poor lighting, and has a number of horrible businesses. Over 75% of the people responding to the (Advance CT) survey supported change. Our town leaders must support. |
| Alan Poirier | 20 years in Old Lyme and not much has changed. This effort would bring some positive change while keeping town values and character. I support this! |
| Jeri Baker | remarkable work! Careful, reasonable, realistic and very much needed to revitalize this town! |
| Kathleen Tracy | Thank you for your work and dedications to making Old Lyme relevant and livable. Such important work! |
| Evan Griswold | A good model is Main Street of Salisbury CT., with mixed commercial and residential along the street and commercial hidden behind. Also, Dark Sky Society approved lighting. |
| Craig Taylor | Pedestrian improvements should include the Lyme St. intersection and a spur trail along the river to Flo Gris & RTP EC center. Great work! |
| Jill & Russ Todd | Include in zoning requirements/incentives for developers to incorporate community activity spaces. |
| Anne Galliher | My appreciation for this group's work. I have lived in Old Lyme since 1985 and been bewildered and frustrated by the acceptance of the mess that Halls Road is. It seems to be an excellent opportunity to introduce (a mix of retail &) housing and safer bicycling and pedestrian passage. |
