The Town of Old Lyme is diligent about keeping our roads safe and clear from hazards. When a storm is predicted, our Public Works crew is on stand-by, and the Superintendent of Public Works closely monitors the weather. Most often, the crews are on the roads just ahead of the storm. In some cases, if a storm hits unexpectedly, a call will be received from the state and the crews will be dispatched immediately.

Town crews plow all town roads, while private roads are not plowed by the Town of Old Lyme, except in the case of an emergency. In that case, the nearest town crew will break away to provide access for first responders to the site of the emergency, whether on a town road or a private road.

Historically, Town roads have been plowed on a prioritized basis, with the goal of keeping roads safe and passable for vehicles. In some cases, the roads are initially plowed, and “clean up” of intersections and sides of road is accomplished towards the end of a storm. Crews are also assigned to clearing walkways at the Town Hall, Senior Center and other Town Facilities. Prioritization of Town roads will continue, with “A” roads being primary, “B” roads being secondary, and “C” roads are generally side streets. Please see the alphabetized list of roads for the designation of your road.

Whenever possible, please stay off the roads during a storm, and do not park on the side of town roads during a snow storm. This will allow us the best opportunity to fully clean up after a storm.

We thank our Public Works Department crew for their hard work during snowstorms and thank you for your patience as we work to make our Town Roads safe for travel.
## A Roads
